

GOOGLIMON GENERATION I

Battle Mechanics Bible

Core Structure

6 Googlimon Teams
Turn-Based Combat
4 Move Slots
Traditional HP System

Indexed Advantage

When attacking a type your Googlimon is naturally strong against, the attacker gains Indexed Insight.

Indexed Insight reveals the opponent's Attack, Defense, Special Attack, Special Defense, and Speed for the remainder of the battle.

Indexed Forms

The signature transformation mechanic.

Activated once per battle.

Effects: +20% all stats, new visual form, and a signature move.

Initial Indexed Forms: Indexwolf, Gamezard, Fameflare, Firewarden, Omnimind, Nexarion, Googlex.

Status Conditions

Corrupted (Poison equivalent)

Lagged (Paralysis equivalent)

Crashed (Sleep equivalent)

Burned

Frozen

Disconnected (Prevents stat boosts and Indexed Forms)

Move Categories

Physical

Digital (Special Attack equivalent)

Utility (Status Moves)

Critical Hits

Renamed to Breakthroughs.

Battle Text: 'Critical Breakthrough!'

Abilities

Cached – First attack reduced by 50%

Viral Spread – Status effects spread

Auto Backup – Survive lethal hit once

Predictive Model – Small dodge chance

Search Algorithm – Increased critical rate

Infinite Scroll – Recover HP each turn

Adaptive AI capable of recognizing switching, setup strategies, and healing patterns.

Index Simulator

Postgame Battle Facility.
Modes: Classic, Randomized, Monotype, Nuzlocke, Legendary Cup.
Rewards: Indexed Forms, rare items, special titles.

Design Philosophy

The battle system asks a central question:

'What if information itself became a combat resource?'

Success comes through information, prediction, adaptation, and decision-making.
