

GOOGLIMON GENERATION I

Team Malware Hierarchy Bible

Team Malware Overview

Official Motto: 'If The Index vanished tomorrow, would humanity survive?'

Public Image: Extremists to some, whistleblowers to others.

Core Belief: Humanity has become dependent on systems it does not understand.

Admin Null

Founder of Team Malware.

Former Chief Index Engineer and colleague of Professor Search.

Specialty: Virus / Cosmic Types.

Philosophy: The world does not understand what it depends on.

Signature Team: Nullhound, Cryptoadon, Debugraith, Mainfragon, Protoindex Fragment, Nullbyte (story encounter).

Executive Council

Trojan – Operations Commander

Phish – Recruitment Leader

Glitch – Technology Sabotage Director

Backdoor – Archive Keeper

Trojan

Division: Operations Division

Philosophy: Convenience weakens people.

Personality: Disciplined former military officer.

Signature Species: Titanframe, Guardianode, Docklord.

Lieutenant: Shield.

Phish

Division: Recruitment Division

Philosophy: People believe whatever they are told.

Personality: Charismatic and manipulative.

Signature Species: Viralord, Fameflare, Brandrake.

Lieutenant: Echo.

Glitch

Division: Technology Division

Philosophy: Technology should be understood before it is trusted.

Personality: Brilliant, chaotic, and surprisingly friendly.

Signature Species: Gamezard, Omnimind, Directive-X.

Lieutenant: Crash.

Backdoor

Division: Archive Division

Philosophy: History is disappearing.

Personality: Quiet and reflective.
Signature Species: Libracode, Debugraith, Findrake.
Lieutenant: CIPHERA.

Rank Structure

Recruit – White Armband
Analyst – Gray Jacket
Operator – Black Coat
Lieutenant – Custom Design
Administrator – Executive Council Member
Admin Null – Founder and Leader

Division Structure

Operations Division – Security teams and logistics.
Recruitment Division – Public outreach and ideology.
Technology Division – Engineering and infrastructure testing.
Archive Division – Historical research and Legacy Server exploration.

Team Malware Bases

Crawler Woods Research Camp
Abandoned Server Farm
Quarantine Facility beneath Firewall Falls
Legacy Node beneath the Datacenter

The Null Protocol

A hidden extremist splinter faction.
Belief: The Index should be destroyed completely.
Even Team Malware considers them dangerous.
Acts as a late-game threat tied to Nullbyte's awakening.
